# Mandry SECURE

REDUCE CYBER RISK | PROVIDE PEACE OF MIND | REST EASY

## Business continuity through:

- Robust cybersecurity and regulatory compliance
- Certified experts
- Organizational credentials
- Business-wide protection

## Why choose us?

 Perpetual Evaluations	 Long-Term Partnership	 Knowledge of Your Environment
--	--	--

## How does it work?

Process	Description
Assess	The relationship will begin by assessing your organization's current state of cybersecurity protection (existing controls, threats, vulnerabilities, response/recovery ability, etc.).
Advise	We will then advise on how to better protect the environment (standards and best practices, gap remediation planning, risk management framework, breach impact analysis, etc.).
Augment	Once your organization's current state has been assessed and we have advised on opportunities for improvement, augmentation will begin (knowledgebase, experienced/credentialed professionals, capacity expansion, solutions deployment, etc.).

**MANDRY  
SECURE**

*Cyber Risk Management to Enhance  
Your Peace of Mind*
